Subject: DRAFT Recommendations by Charge Question Table for Asbestos
Attachments: SACC public comment table for Asbestos_5June2020DRAFT.xlsx

Hi Don

Attached is the DRAFT Public Comments by Charge Question Table, which includes notes within table to explain it. I've tried to make those notes self-explanatory.

When the Docket staff complete processing the additional public comment submissions and they are assigned their final Docket ID numbers, and reach Posted status, then I'll embed the documents for those files.

For now, I've included the DRAFT numbers, which will lead SACC members to the relevant file in Steve's FDMS "data dump" (as you know, also has copyrighted/restricted material from FDMS).

Regulations.gov will post the final public comment submission so that it is publicly available in docket on Regulations.gov, and those final Posted status files later will be embedded in next version of Public Comments by Charge Question table.

Please let me know if you have any questions. If needed, call 240-498-2140.

Thanks,

Amy

Hi Don

So you can plan ahead . . . I'm anticipating sending you DRAFT table around 2pm (or before, if possible). Skipping lunch!

Thanks,

Amy

Rest assured, I've been working diligently on this since we found how many submissions came into docket at end of public comment period.

And, BTW, some or all of those additional 5 comments (that increased 70 to 75 total) may have been submitted by June 2nd – when I get the metadata downloaded from docket, I'll know those dates!

Yes that is correct, Amy. But it is OK to send the draft table to us without the comments received after June 2, as usual. Thanks!

The FR notice said SACC panel will consider all comment received through the end of the oral public comment period

For all previous SACC meetings, I have completed this table based on that second deadline announced in FR notice so for consistency in approach had planned to proceed same as all other SACC peer reviews.

I do not think the panel has to consider comments submitted after June 2 for the meeting. Thanks.

Diana

Sorry, I forgot to mention that the five (5) even more recently submitted comments (you now have 75 total) probably will not be in DRAFT table today!

A SUGGESTION FOR ALL THOSE MEDALS THE OLYMPICS WON'T BE NEEDING THIS YEAR...

Hi Don

I'm working through the 43 additional comments, and my plan was to send you the DRAFT table that I have this afternoon in the most complete shape possible. Then, I will continue working to complete it when all public comment submissions are posted in docket.

I understand fully why you need to get a DRAFT table to the SACC panel today, since Asbestos peer review meeting begins on Monday!

Thanks,

Amy

Hi Amy,

Thank you for your continued good work on this table, including the comments that have yet to appear in the docket.

How much of the table do you think you can complete by the end of the day? Is it possible to complete it today? We'd like to get as many of the comments in the table for the Panel so they can review this weekend.

Thank you,

Donald Wood
